Contents

Volume 14, Number 1, January 1987

Leif Kullman: Long-term dynamics of high-altitude populations of *Pinus sylvestris* in the Swedish Scandes 1

Thomas J. Smith, III and Norman C. Duke: Physical determinants of inter-estuary variation in mangrove species richness around the tropical coastline of Australia 9

J. J. Boomsma, A. A. Mabelis, M. G. M. Verbeek and E. C. Los: Insular biogeography and distribution ecology of ants on the Frisian islands 21

P. J. Cullen: Regeneration patterns in populations of *Athrotaxis selaginoides* D. Don. from Tasmania 39

Richard W. Osman and Thomas A. Dean: Intra- and interregional comparisons of numbers of species on marine hard substrate islands 53

Claudio Delgadillo M.: Moss distribution and the phytogeographical significance of the Neovolcanic Belt of Mexico 69

Earl D. McCoy and Kenneth L. Heck, Jr: Some observations on the use of taxonomic similarity in large-scale biogeography 79

Pehr H. Enckell, Sven-Axel Bengtson and Bo Wiman: Serf and waif colonization: distribution and dispersal of invertebrate species in Faroe Island settlement areas 89

Volume 14, Number 2, March 1987

R. J. Aspinall and A. M. Pye: The effect of trampling on limestone grassland in the Malham area of North Yorkshire 105

Jean-Louis Vernet and Stephanie Thiebault: An approach to northwestern Mediterranean recent prehistoric vegetation and ecologic implications 117

A. L. Heathwaite and S. M. Ross: Evaluation of qualitative and quantitative classifications for fen peat in the Somerset Levels, England 129

J. Crowther: Ecological observations in tropical karst terrain, West Malaysia. II. Rainfall interception, litterfall and nutrient cycling 145

J. Crowther: Ecological observations in tropical karst terrain, West Malaysia. III. Dynamics of the vegetation–soil–bedrock system 157

Cris Cristoffer: Body size differences between New World and Old World, arboreal, tropical vertebrates: cause and consequences 165

Francisco L. Pérez: Soil moisture and the upper altitudinal limit of giant paramo rosettes 173

Book Reviews 187

Volume 14, Number 3, May 1987

T. C. D. Dargie: An ordination analysis of vegetation patterns on topoclimate gradients in south-east Spain 197

Torbjörn Ebenhard: An experimental test of the island colonization survival model: bank vole (*Clethrionomys glareolus*) populations with different demographic parameter values 213

Anders Pape Møller: Breeding birds in habitat patches: random distribution of species and individuals? 225

Richard H. W. Bradshaw and Philip Browne: Changing patterns in the post-glacial distribution of *Pinus sylvestris* in Ireland 237

P. S. Ashton and C. V. S. Gunatilleke: New light on the plant geography of Ceylon. I. Historical plant geography 249

Book Reviews 285

Volume 14, Number 4, July 1987

C. V. S. Gunatilleke and P. S. Ashton: New light on the plant geography of Ceylon. II. The ecological biogeography of the lowland endemic tree flora 295

Bruno Baur and Jan Bengtsson: Colonizing ability in land snails on Baltic uplight archipelagos 329

André Bouchard, Stuart Hay, Yves Bergeron and Alain Leduc: Phytogeographical and life-form analysis of the vascular flora of Gros Morne National Park, Newfoundland, Canada 343

John W. Brown: The peninsular effect in Baja California: an entomological assessment 359

Juan J. Armesto and Javier Figueroa: Stand structure and dynamics in the temperate rain forests of Chiloé Archipelago, Chile 367

I. Nordal: Tabula rasa after all? Botanical evidence for ice-free refugia in Scandinavia reviewed 377

Book Reviews 389

Volume 14, Number 5, September 1987

G. H. Harper: A critical review of theories concerning the origin of the Darwin finches (Fringillidae, Passeriformes) 391

Jacques Blondel: From biogeography to life history theory: a multithematic approach illustrated by the biogeography of vertebrates 405

R. K. Morgan: Composition, structure and regeneration characteristics of the open woodlands of the New Forest, Hampshire 423

R. K. Morgan: An evaluation of the impact of anthropogenic pressures on woodland regeneration in the New Forest, Hampshire 439

Karstein Bye, Odd Halvorsen and Kjell Nilssen: Immigration and regional distribution of abomasal nematodes of Svalbard reindeer 451

K. Christiansen and D. Culver: Biogeography and the distribution of cave collembola 459

M. B. Bush and A. R. Hall: Flandrian *Alnus*: expansion or immigration? 479

Paul Adam: The use of superorder composition for the intercontinental comparison of saltmarsh floras: some comments on a paper by J. A. Elsol 483

James A. Elsol: Interpretation, methodology and redundancy: a response to P. Adam 491

Book Reviews 495

Volume 14, Number 6, November 1987

Ileana Espejel: A phytogeographical analysis of coastal vegetation in the Yucatan Peninsula 499

Richard C. Rounds: Distribution and analysis of colourmorphs of the black bear (*Ursus americanus*) 521

J. B. Kirkpatrick and M. J. Brown: The nature of the transition from sedgeland to alpine vegetation in south-west Tasmania. I. Altitudinal vegetation change on four mountains 539

D. Bruce Means and Daniel Simberloff: The peninsula effect: habitat-correlated species decline in Florida's herpetofauna 551

Sharon L. Quinn, J. Bastow Wilson and Alan F. Mark: The island biogeography of Lake Manapouri, New Zealand 569

Per Forchhammer and Qiao Wang: An analysis of the subfamily distribution and composition of the longicorn beetles (Coleoptera: Cerambycidae) in the provinces of China 583

Book Reviews 595
